## Rounding to the nearest 1000

Round the numbers below to the nearest 1,000.

Example: 7,852 is between 7,000 and 8,000 and would be rounded to 8,000.

1. 1,963 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
2. 2,243 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
3. 4,625 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
4. 8,463 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
5. 5,635 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
6. 7,420 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
7. 9,271 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
8. 19,253 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
9. 17,823 is between \_\_\_\_\_ and \_\_\_\_\_ and would be rounded to \_\_\_\_\_.
10. The distance between Toronto and Sydney is 15,553 km. Round it to the nearest 1,000 km. \_\_\_\_\_
11. A newspaper sold 12,782 copies. What is it to the nearest 1,000 copies?  
\_\_\_\_\_.
12. The exact number of tickets sold at a concert was 87,381. This number was reported in the newspaper to the nearest 1,000. What number appeared in the newspaper? \_\_\_\_\_
